are all poisonous substances stored out of the sight and reach of children, in a secured area?	<input type="radio"/>	<input type="radio"/>
Does your family play in the shade, wear hats, sunscreen and sun smart clothing and shoes?	<input type="radio"/>	<input type="radio"/>

# Home Burns Safety Checklist

Yes

No

Is at least 50% of your play and pool area protected from the sun's ultra violet rays by natural shade or shade structures?

Do you have a first aid kit and fire extinguisher in your car?

Does everyone in your home know the triple zero (000) emergency number?

Do you have a fire escape plan for your home?

If you live in a bushfire prone area, does your family have a prepared and practiced bushfire survival plan?

Do you always supervise children around heaters, open fires and candles?

Have you checked that compartments on devices containing button batteries are secured and can't be accessed by children?

Is access to the kitchen restricted by using a safety barrier?

Do any appliances, including the kettle have short cords that do not dangle over the bench?"

Do you store batteries, particularly lithium button batteries out of reach and dispose of them safely?

Do you use the back hot plates and turn pot handles around to prevent pots being pulled from the hot plate, or do you have a stove guard?

Do you have a child-resistant lock on your oven door?

Are matches, lighters, cigarettes and ashtrays stored in a place where children cannot reach them?

Are cups of hot tea/coffee kept out of reach of your child?

Are any items kept away from the stove?

Are hair straighteners and curlers unplugged when not in use?

Are heaters kept at least 1 metre away from curtains, furniture, or other flammable material?
